To Whom It may Concern

Khensani's Collection collaborated with Future Leaders Africa in 2019 to form part of their Career Development Program offered to Students in Diepsloot.

Using insights from the Future Leaders Principles, Personal Development Analysis and Career Development Simulations, the feedback from students who experienced our "inside out" understanding of themselves in relation to their circumstances and Personal Development **was that it** provided the **accountability** and preparedness for their careers and adult life as well as addressing the challenges they faced along the way.

Heartfelt Discussions and further Coaching was had, especially around Parent Relationships, often parents / guardians force specific Career Selection which is often not suited to a Students personal strengths.

Khensanis Collections, is a proud DevelopMe Partner and is an Accredited Future Leader Coach.

Regards

Diana Musara
